TMGMA website www.tmgma.com

WHAT | **Healthcare IT Summit**
WHEN | **November 13, 2008**
WHERE | **Knoxville Convention Center**

Through the Healthcare IT Summit, healthcare and technology professionals have an opportunity to learn valuable information that can create a WIN WIN OPPORTUNITY.

Understanding technology will enhance the usefulness and establish more of a long-term relationship with the provider. Through this venue, we are able to connect all the pieces and players and allow more interaction with suppliers and users.

PROGRAM DESCRIPTION

Attendees will gain a better understanding & find resources for: Implementing the right EMR system, optimizing your telecommunication needs, voice recognition software, managing a computer network and information security, government grants and how to apply, and much more.

The information and resources discovered through the Healthcare IT Summit will be invaluable to the future development of your practice. This select group of professionals has been called together to share their knowledge and expertise with you for this one day event.

THE BENEFITS

To hear real-life success stories & challenges associated with EMR systems. To gain valuable knowledge and insight into the application of innovative products and services to help your practice work more efficiently.

You will have the opportunity to save countless hours of your time reviewing sophisticated technology systems, by meeting the leaders in the industry and having them demonstrate how their systems will work for you.

Through the Healthcare IT Summit, healthcare professionals and technology providers come together for a day of education. Attendees will learn about valuable products and services through hands on demonstrations from experts that understand the needs of medical practices.

Attendees will go back to their practices with applicable knowledge and a list of providers that offer simple answers to their complicated technological needs.

SPEAKERS:

David Kibbe, M.D., MBA
